# ANNUAL REPORT OF THE

# JUVENILE JUSTICE SUBSTANCE ABUSE MENTAL HEALTH PARTNERSHIPS (JJSAMHP)

2015-2016

Health and Human Services

The Juvenile Justice Substance Abuse Mental Health Partnerships are partially supported by the NC Division of Mental Health, Developmental Disabilities and Substance Abuse Services and works in collaboration with the North Carolina Department of Public Safety, Division of Adult Corrections and Juvenile Justice. Funding is also provided by the Substance Abuse and Mental Health Services Administration (SAMHSA). Technical Support is provided by the University of North Carolina at Greensboro, Center for Youth, Family and Community Partnerships. This report was generated by the staff and students at the UNCG Center noted above in collaboration with NCDMHDDSAS and NC DPS-DACJJ. Please address correspondence to Sonja Frison, Ph.D., MPH, UNCG-CYFCP, 1001 West Gate City Blvd, Greensboro, NC 27403 or <u>slfrison@uncq.edu</u> or Rachel Johnson, NC Department of Health and Human Services-Division of Mental Health, Developmental Disabilities and Substance Abuse Services, <u>rachel.johnson@dhhs.nc.gov</u> or Candice Moore, NC Department of Public Safety, <u>candice.w.moore@ncdps.gov</u>.

# Section A: Overview of the Juvenile Justice Substance Abuse Mental Health Partnerships (JJSAMHP)

The Juvenile Justice Substance Abuse Mental Health Partnerships (JJSAMHP) are local teams across North Carolina working together to deliver effective, family-centered services and supports for juvenile justice-involved youth with substance abuse and/or mental health challenges. The partnerships require an organized, person-centered system that operates under the following System of Care principles:

- Family Driven & Youth Guided
- Child & Family Team Based
- Natural Supports
- Collaboration
- Community Based
- Culturally & Linguistically Competent
- Individualized
- Strengths Based
- Persistence
- Outcomes and Data Based Driven

The Partners can include any individual/agency in the community that wants to help address these issues but at a minimum, includes:

|  | ≻ | A Local Management Entity/Managed Care Organization |
|--|---|---|
| JJSAMH Partnerships must<br>involve LME/MCO staff and JJ | ≻ | Local Juvenile Justice Court Leadership             |
| Leadership   | > | Local Provider(s)                                   |
|  | , |   |

Coordination with Juvenile Crime Prevention Councils

The Partnerships work together to ensure the following for juvenile justice involved youth:

- Completion of comprehensive substance abuse and mental health clinical assessments by appropriately licensed substance abuse and mental health treatment professionals
- Provision of evidence-based treatment options to youth referred for substance abuse, mental health and co-occurring disorders by appropriately licensed and qualified mental health professionals
- Use of the Child and Family Team Process
- Involvement of Juvenile Crime Prevention Councils in programming

Additionally, the JJSAMHP teams are requested to problem solve about the following domains:

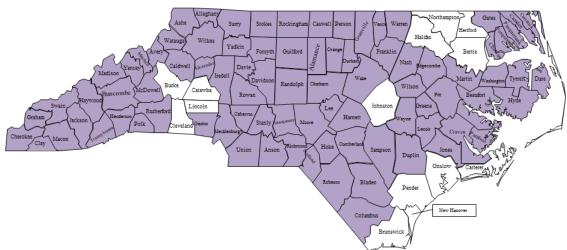

- Usage of funding such as Medicaid, Health Choice, Child Mental Health and Child Substance Abuse funding in collaboration with their LME/MCO financial liaisons
- Utilize methods/practices for engaging youth and families
- Increase accessibility of services including offering after hour or non-traditional service provision times
- Providing for choice for families in service locations including at JJ offices, in homes, and in the community
- Establishing a relationship amongst providers to develop a service array
- Work on decision making about processes for out of home placements
- > Assist in training staff on Evidence Based Treatments and Evidence Based Practices

This <u>Annual Report</u> provides information about the JJSAMHP 2015-2016 fiscal year. Although no report can capture every detail of a statewide initiative, the purpose of this document is to provide the main highlights and overall information about JJSAMHP. It is divided up in the following sections:

- Section A is this overview of the document.
- Section B outlines the Local Management Entities (LME)/Managed Care Organizations (MCOs) involved with JJSAMHP and includes information on the Court Districts associated with each LME/MCO.
- Section C outlines the JJSAMHP Service Domains that are expected to be addressed by each JJSAMHP local team. This section also includes overall statistics for the JJSAMHP across all sites.
- Section D outlines Activities and the Accomplishments of the overall JJSAMHP.
- Section E details the local JJSAMHP processes including screening, assessment, and admission to treatment for each local team as reported at the end of the fiscal year 2015-2016.

# Section B: Local Management Entity/Managed Care Organization Involvement

As noted, JJSAMHP teams must involve the Local Management Entity/Managed Care Organization (LME/MCO). The role of the LME/MCO is to help to ensure that the principles of the JJSAMHP are facilitated through the local teams and to support local team activities. During this fiscal year, there were 9 LME/MCOs associated with JJSAMHP serving 86 counties. Within the LME/MCO's, there are 19 locally driven teams that work to address juvenile justice involved youth and family needs.

### JJSAMH Partnerships Across North Carolina

#### The major teams associated with JJSAMHP are as follows (with their 2015-2016 nomenclature):

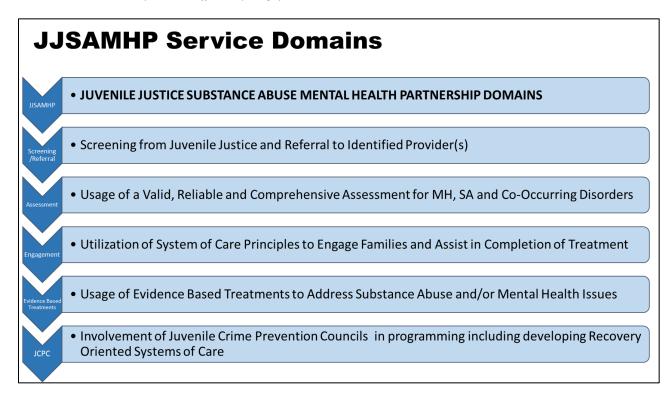

| Alliance Behavioral   | Cardinal Innovations         | CenterPoint Human Services |
|-----------------------|------------------------------|----------------------------|
| Healthcare (3 teams)  | Healthcare Solutions (5      | (until June 2016)          |
|                       | teams)                       |                            |
| Eastpointe (3 teams)  | Partners Behavioral Health   | Sandhills Center (2 teams) |
|                       | Management (2 teams)         |                            |
| Smoky Mountain Center | Trillium Health Resources (2 |                            |
|                       | teams)                       |                            |

# Section C: JJSAMHP Service Domains

Although local teams define service provision within their area, there are five domains that are expected to have some uniformity to ensure that youth engage in services based on best practices. These five domains are: Screening/Referral, Assessment, Engagement, Evidence Based Treatments, and involvement with Juvenile Crime Prevention Councils. Most of these overall domains are represented by a national initiative, Reclaiming Futures (RF). Reclaiming Futures "helps teenagers caught in cycle of

drugs, alcohol and crime. The project began in 2001 with \$21 million from Robert Wood Johnson Foundation (RWJF) for 10 pilot sites to create a six-step model that promotes new standards of care and opportunities in juvenile justice" (<u>http://www.reclaimingfutures.org</u>)

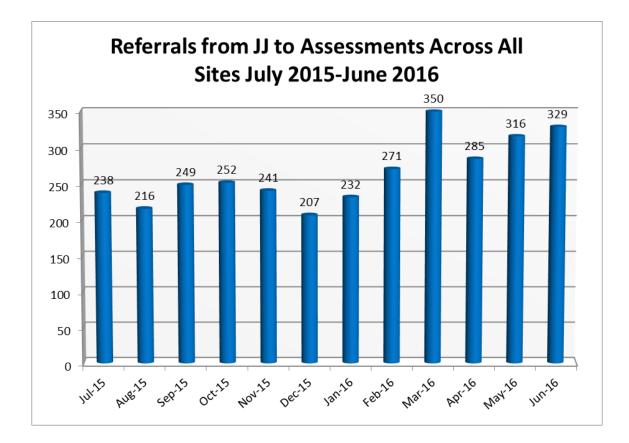

The RF six steps include a <u>Coordinated Individualized Response</u> of: 1) Initial Screening; 2) Initial Assessment and 3) Service Coordination and <u>Community Directed Engagement</u> plan for: 4) Initiation; 5) Engagement; and 6) Transition. Although all of the JJSAMHP teams do not have to follow this model (there are eight RF sites in NC), the concepts are complementary to JJSAMHP service domains. Please note these five domains below. It is also noted that most of the team processes within each of the first four domains for each LME/MCO are outlined in the JJSAMHP Compendium of Services, which can be viewed online at: <u>http://www.jjsamhp.org/publications/</u>.

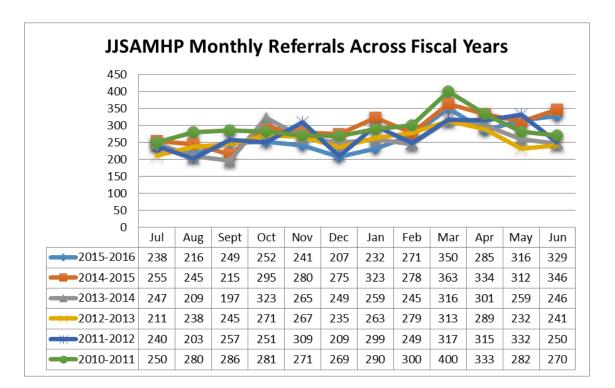

### **JJSAMHP Domain I: Screening and Referral**

The first domain is Screening and Referral. According to Reclaiming Futures, screening involves usage of a reputable tool to identify youth who potentially have a substance abuse problem. In the case of JJSAMHP, the tool should also be able to detect possible mental health challenges. 100% of the JJSAMHP teams identify a uniform screening process from JJ to a local provider. The tool that is used in North Carolina is the Global Appraisal of Individual Needs- Short Screener (GAIN-SS).

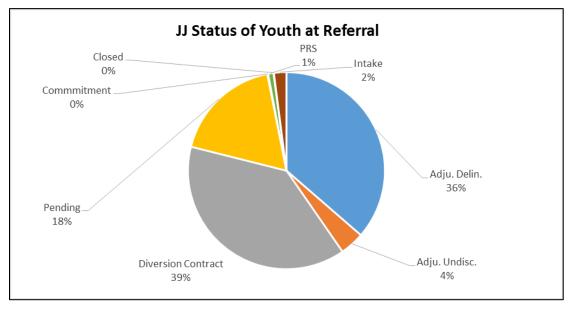

Based on data submitted by the local teams, there were 3,186 referrals from Juvenile Justice (JJ) screening to local provider(s) for assessments from July, 2015 to June, 2016. This averages to 266 referrals per month. For the first half of the fiscal year (July through December) there were 1,403 referrals and for the second half of the fiscal year (January through June), there were 1,783 referrals. To determine the number of referrals for each team across this time period, please see the section entitled "Local Team Processes." The following graphs represent the total referrals completed across all JJSAMHP teams for 2015-2016, and then a comparison of this fiscal year with the five previous fiscal years.

# JJ Categories for Youth Involved with JJSAMHP

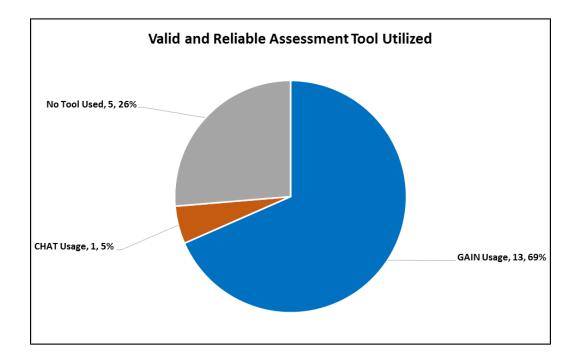

There are different categories for juvenile justice involvement for youth referred within JJSAMHP. The most common to least common juvenile justice status points at time of referral to a JJSAMHP provider for those who reported status of Diversion with Contract followed by Adjudicated Delinquent. The information is in the following graph:

### **IJSAMHP Domain II: Assessment**

The second JJSAMHP domain is Assessment. The Assessment tool used by JJSAMHP teams must gather information on substance abuse and mental health challenges. According to Reclaiming Futures, a comprehensive assessment involves usage of a tool to ascertain a wide range of individual and family risk factors, service needs, as well as the youth's strengths and assets.

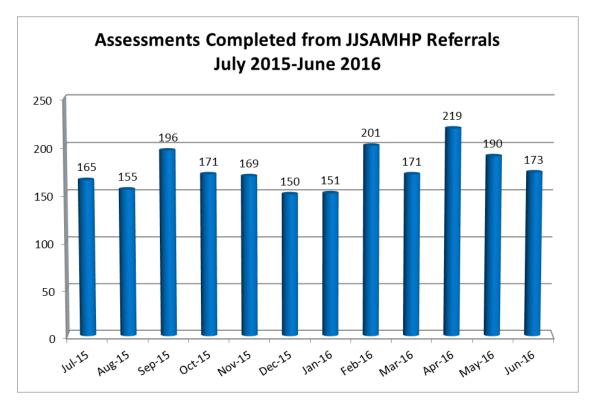

This year, there was data collection on types of Evidence Based Tools that teams utilized to assess youth once they were referred to a provider. The tools that were collected this year such as the Global Appraisal of Individual Needs (GAIN) and the Comprehensive Health Assessment for Teens (CHAT). Fourteen out of 19 teams reported using an evidence based (valid and reliable) assessment tool for mental health and substance abuse. This was also compared to the teams' reports of monthly data and if the team classified that they are using another tool such as a Comprehensive Clinical Assessment (CCA), then this was classified as "No Tool Used" below. Three of the sites utilize a dedicated assessment clinician or a clinician that is mainly housed at JJ. The following chart outlines the most frequently cited valid and reliable assessment tools used by teams:

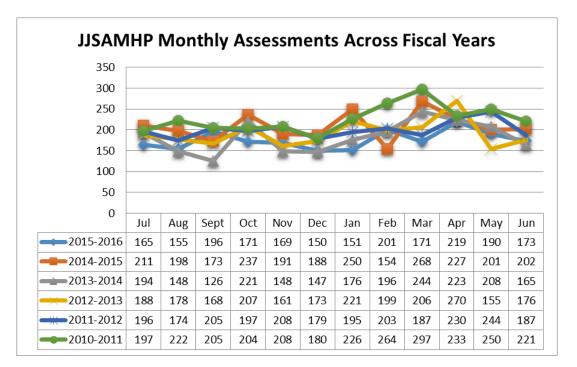

Based on data submitted by the local teams, there were <u>2,111 assessments completed</u> by partnering providers for the JJSAMHP during 2015-2016. This represents 66% of the youth referred being assessed. This averages to 176 assessments per month. For the first half of the fiscal year (July through December) there were 1,006 assessments and for the second half of the fiscal year (January through

June), there were 1,105 assessments. The assessments completed represent 72% of the referrals for the first half of the year and 62% of the referrals for the second half of the year. To determine the number of assessments for each LME/MCO across this time period, please see the section entitled "Local Team Processes." One of the main barriers noted by teams in assessment process is mainly around funding for youth who are privately insured to get an assessment completed or underinsured youth. Additionally, there was significant turnover in staff or changing of provider agencies across the teams (which affects all areas). Of the 19 JJSAMHP teams, 12 had major shifts in personnel or agency leadership (63%). To address these issues, teams are working with the LME/MCO to better understand what they are able to do and to establish sustainability plans so that the work is not as impacted by transition and changes in personnel. These plans also include training of new staff on practices such as data entry, engagement protocols, etc. that can be readily employed with new team members.

The following graphs represent the total assessments completed across all JJSAMHP sites for 2015-2016 and then a comparison of this fiscal year with the previous fiscal years. The last graph is the number of valid and reliable assessments reported by the teams. It is noted that this upcoming fiscal year will add an increased monitoring to this reporting variable as there is limitations as to what each team can report.

### **JJSAMHP Domain III: Engagement**

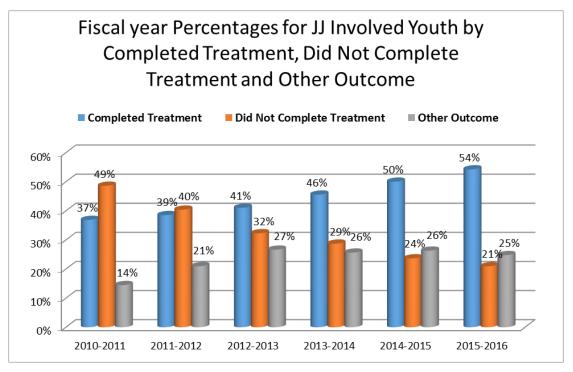

The third JJSAMHP domain is Engagement–particularly utilizing System of Care Principles. Although engagement can entail various areas, including partnering with families, etc., the focus was ensuring admission to a partnering provider who agreed to include Child and Family Teams as part of the continuum of care. 100% of the teams cite regular usage of Child and Family Teams. There were <u>1,301</u> admissions to JJSAMHP providers during 2015-2016. It is noted that several of the teams do not have the capability to track when referring youth outside of the partnering provider array, so there are likely youth who are referred to another provider but not captured in these numbers since it is based on admissions by partnering providers. For the first half of the fiscal year (July through December) there were 650 admissions to local JJSAMHP providers and for the second half of the fiscal year (January through June), there were 651 admissions to JJSAMHP providers. To determine the number of admissions for each LME/MCO across this time period, please see the section entitled "Local Team Processes." The following graphs represent the total admissions to JJSAMHP partner providers for 2015-2016 and then a comparison of this fiscal year with the previous fiscal years.

When asking teams about admission rates going down, some teams have started to collect data on those youth that are not admitted to services. The main anecdotal note that teams make is challenges with authorization of services. This upcoming fiscal year, this data will be tracked by some teams through web portal so this will be better assessed.

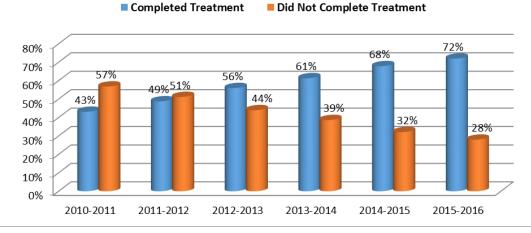

# Discharge Completion Rates for JJSAMHP across Fiscal Years 2011, 2012, 2013, 2014, 2015, 2016

Another area that has been outlined is percentage of youth who have successfully completed treatment across the fiscal years. NC-TOPPS (see Section D) data is completed by treatment providers for youth

who initiate and complete treatment. The <u>Completed Treatment</u> group includes those youth who successfully completed treatment services. The <u>Did Not Complete Treatment</u> group includes those youth who never received any treatment/services, were discharged at the program initiative, refused treatment, incarcerated, and did not return as scheduled within 60 days. The <u>Other Outcome</u> group includes youth who were institutionalized, moved out of area, changed to a service not required by NC-TOPPS and youth who died during the fiscal year. The first chart outlines all juvenile justice discharges and the second chart only the Completed Treatment and Did Not Complete treatment groups. As in previous years, both of these percentages increased.

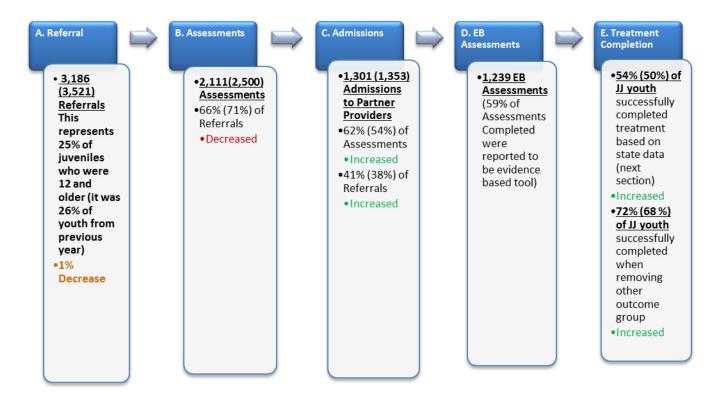

# Fiscal year Percentages for JJ Involved Youth by Completed Treatment and Did Not Complete Treatment Only

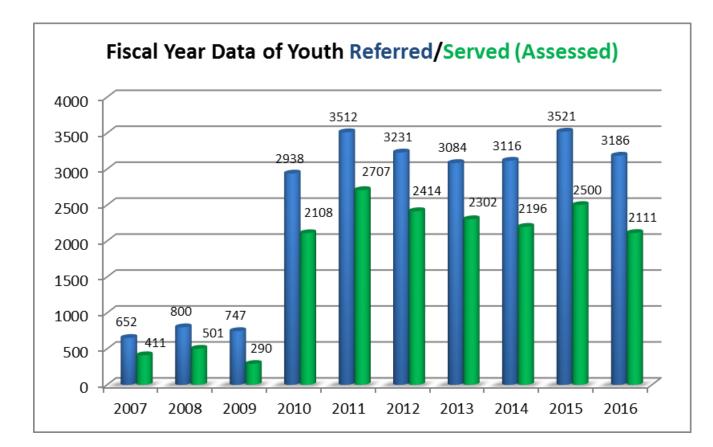

13

# **Overall Process Numbers for JJSAMHP for 2015-2016**

The graphic below outlines key process points for JJSAMHP over the last fiscal year in the following areas: a) the number of youth that had documented referrals from JJ to JJSAMHP assessment provider; b) the number of youth assessed and documented by a JJSAMHP provider; c) the number of youth admitted by a JJSAMHP provider (it is again noted that youth can be referred outside of partnership to a provider who is not tracking data and based on family choice and needs); d) the number of youth for whom provider reported they used an evidence based assessment tool; and e) the percentage of youth who successfully completed treatment based on data provided to the state by providers (see this information below). There were fewer youth referred this year when compared to last year, but this was not significant as there were fewer youth involved in the intake process-so the percentages of youth were essentially the same across the years. There was a decrease in youth being assessed from referral this year and an increase in admissions and treatment completion. The numbers in parentheses represent the figures for previous (2014-2015) fiscal year.

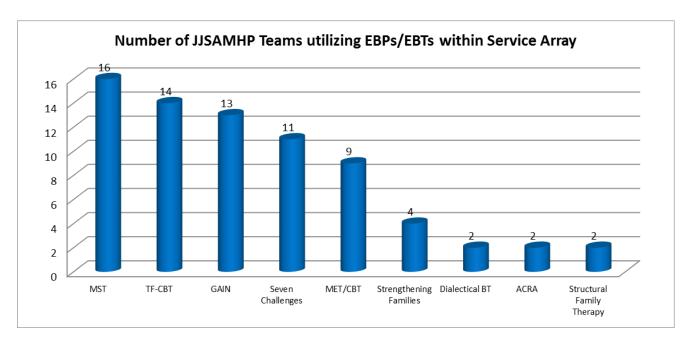

Additionally, there is data on the number of youth referred by JJ to a JJSAMHP provider (formerly MAJORS), and the number of youth who were assessed by a JJSAMHP provider for services. The next chart outlines this information over the last fiscal years. Notably, during Years 2007, 2008, 2009 (MAJORS), only youth with substance abuse issues were being tracked and in 2010, 2011, 2012, 2013, 2014, 2015, 2016 (JJSAMHP), youth with mental health issues were also tracked across multiple providers.

### **IJSAMHP Domain IV: Evidence Based Practices/Evidence Based Treatments**

The fourth domain is usage of Evidence Based Practices/Treatments. All teams cite having providers that use evidence based treatments within their service array. The most commonly used EBT's/EBP's are in the chart below (only those with 3 or more sites are listed). This information is provided by the teams but this is not a check into the actual fidelity of the treatment/practice. The Evidence Based Practices/Treatments include: Multisystemic Therapy (MST), Trauma-Focused Cognitive Behavioral Therapy, Global Appraisal of Individual Needs (GAIN), Seven Challenges, Motivational Enhancement Therapy/Cognitive Behavioral Therapy (MET/CBT), Strengthening Families, Dialectical Behavior Therapy, Adolescent Community Reinforcement Approach, and Structural Family Therapy. All of the listed areas are Evidence Based Treatments except the GAIN which is an Evidence Based Assessment. Any practices/or treatments that had more than one team endorsing the usage was included in the tabulation. For more information on these EBP's/EBT's, please refer to: http://www.jjsamhp.org/publications/.

# JJSAMHP Domain V: JCPC Involvement-Developing Recovery Oriented Systems of Care and Ensuring "Beyond Treatment" Activities

The last domain involves inclusion of Juvenile Crime Prevention Council (JCPC) programming, particularly with respect to Recovery Oriented Systems of Care (ROSC).

ROSC is defined as the following:

Recovery-oriented systems of care are designed to support individuals seeking to overcome substance use disorders across the lifespan. Participants at the Summit declared, "There will be no wrong door to recovery" and also recognized that recovery-oriented systems of care need to provide "genuine, free and independent choice" (SAMHSA, 2004) among an array of treatment and recovery support options. Services should optimally be provided in flexible, unbundled packages that evolve over time to meet the changing needs of recovering individuals. (USDHHS, 2009)

For the purposes of JJSAMHP, the focus is to build upon treatment services to address the needs of not only youth with substance abuse issues, but also youth with mental health issues as well. This is described by Reclaiming Futures as "Beyond Treatment" and entails involvement in other community based activities such as mentoring and leadership development to address the holistic needs of the youth and their families as recovery often includes natural supports and helps that can only be provided by the community. JJ leadership is involved with both JJSAMHP and the local JCPC team.

# Section D: Activities and Accomplishments of JJSAMHP for Fiscal Year 2015-2016

This section outlines the overall Activities and Accomplishments of the JJSAMHP for the 2015-2016 Fiscal Year. This will be detailed in four (4) areas that helped shape the review of activities: 1) Strengthen Partnerships, Communication, and Information Sharing; 2) Improve Data Reporting; 3) Provide Support for Training and Technical Assistance; 4) Provide Support for Usage of Evidence Based Practices/Evidence Based Treatments/Best Practices. Each of these areas is outlined below.

# 1. Strengthen Cross-System Partnerships, Communication and Information Sharing

One of the goals for this fiscal year was to provide support for teams to continue their work in crosssystem partnerships, including strengthening information sharing mechanism, documentation of activities, and providing opportunities for cross-system training and collaboration. Local teams meet at varying frequencies from quarterly to every week (for clinical staffing). This information can be found in the Compendium of Services that is updated at least twice per year at

<u>http://www.jjsamhp.org/publications/</u>. Additionally, the state level partnership meets to review and discuss the initiative and processes and to obtain and provide feedback. The focus was to increase communication and sharing of information between state level and local partners to assist in providing support to local teams. Additionally, this year sought the completion of Information Sharing Training Protocol in consultation with Department of Public Safety and distribution of plan after approval from their leadership. The main activities are highlighted below that focus on this area:

- A. One activity for this fiscal year was the provision of Regional meetings that addressed implementation of state level processes to the local JJSAMHP and Reclaiming Futures Teams. The state team worked on the following dissemination for local teams: Best Practices in Screening and Assessment Dissemination, JJBH Services Process Dissemination, coordinated with DPS Community Programs speaker, and Detention Flow Chart processes.
  - a. 4/4/2016-Western/Piedmont (Hickory, NC) -44 Cross System Team members
  - b. 4/6/2016-Eastern (Greenville, NC)-54 Cross System Team members
  - c. 4/7/2016-Central (Durham, NC)-65 Cross System Team members
- B. Additionally, the Information Sharing Training packets were developed in consultation with Department of Public Safety for implementation with their team members.
- C. The following webinars or cross-system education sessions were implemented during the fiscal year:
  - a. October 22, 2015 on Cross Talk Webinar series- "Single Assessor, Transparency and Choice"-32 participants
  - b. December 16, 2015 Cross Talk Webinar series "Using Data to Facilitate Systems Change"-9 participants
  - c. Emailer-August 2015: "Disproportionate Minority Contact (DMC) in the Juvenile Justice (JJ) System"

- d. Emailer-September 2015: "Family Partners on NC JJBH Teams Double from 2013 to 2015"
- e. Emailer-October 2015: "Time in Treatment by Treatment Outcome Disposition"
- f. Emailer-January 2016: "Trauma and Juvenile Justice Involved Youth"
- g. Emailer-February 2016: "Top 4 Barriers to Treatment Services Identified by Juvenile Justice (JJ) Involved Youth"
- h. Emailer-April 2016: "JJSAMHP 2015 Partnership Key Results"
- i. April 27, 2016- Webinar on "Defining Family Voice versus Family Partner"
- D. One additional effort within this domain was the facilitation of a Family Partner and Young Adult training that focused on providing Family Partners and Young Adults across the state with the information and tools they need to be confident and effective advocates for the youth and families they support to address areas of interest for those advocating for youth in the justice system and their families. This was held on June 29, 2016 with 20 Family and Youth Advocates in attendance in Greensboro.
- E. UNCG participated in 46 state level team meetings across various initiatives to provide one link from JJBH initiatives to broader state efforts such as Fetal Alcohol Spectrum Disorders collaborative and the System of Care State Collaborative.
- F. The Compendium of Services was maintained as a resource document through work with local teams (specifically LME/MCO liaisons). Again this year, it was helpful to involve a Family Partner and an undergraduate student in attaining information from LME/MCO liaisons. This allows for individuals to see various roles that Family Partners can play in working with JJSAMHP teams. The Compendium of Services outlines key team partners, juvenile justice youth served, services provided, referral, assessment, and treatment processes. The link to the Compendium is located at <a href="http://www.jjsamhp.org/publications/">http://www.jjsamhp.org/publications/</a>.
- G. It was important to continue to update the JJSAMHP website, including weekly updates of the Substance Abuse Residential beds for those in state seeking this resource for juvenile justice involved youth. The Residential census that is updated by UNCG students is at the following link: <u>http://www.jjsamhp.org/residential-census/</u>
- H. A monthly updated Technical Assistance (TA) document was provided to state and regional level partners to ensure better understanding of type of work being completed by sites. Each TA onsite visit and each substantial contact (such as teleconferences or research requests) is noted in the TA Document, which is described in more detail in Section 4.

# 2. Improve Data Reporting

This second area for the fiscal year was to improve already existing data reporting mechanisms to help increase the ability to describe local and state processes. This includes two forms of data: the monthly report that is required by the Division of LME/MCO partners and the collection of North Carolina Treatment Outcomes and Program Performance System that is required by providers:

A. The teams continued to use the data system, Qualtrics, through UNCG to submit their monthly data reports. This allowed local teams to generate a report of their data at the time of submission. The main data points continue to be referrals, assessments, and admissions. This

year, a data point of Evidence Based Assessments (valid and reliable assessments) was added. This first year was found that some teams did not clearly notate their evidence based assessments when an "other" category was outlined so this will be streamlined in the upcoming fiscal year to increase validity of reporting.

- B. UNCG worked with teams on the data system and compliance/accuracy of data submissions. This includes training new liaisons since there were many staff changes through the year. Reports were generated and provided to state level partners and local teams when requested. The survey questions for the monthly reports are located in Appendix A.
- C. The second domain was obtaining/cleaning/linking and distribution of NC-TOPPS data. This is to assist in providing more information about quality and treatment provided to youth who are admitted to services. JJSAMHP state partners and UNCG provided end of previous fiscal year and mid-year information out to teams about NC-TOPPS data. NC-TOPPS interview forms can be found here: <u>https://www.ncdhhs.gov/providers/provider-info/mental-health/printable-interview-forms</u>
- D. The UNCG evaluation team continued to provide information to state and local team partners regarding the de-identified database in which access was granted in 2012 and continued during this fiscal year. Teams can access analyses per request and the questions are outlined in Appendix B. An example of a data report generated from NC-TOPPS state level partners on Disproportionate Minority Contact is included in Appendix C.

## 3. Provide Support for Training and Technical Assistance

A. <u>Technical Assistance.</u> Another activity of the JJSAMHP was to provide technical assistance directly to local teams. The state level partners requested that teams be visited at least two times during the year. <u>There were a total of 127 site visits</u> to teams from July, 2015 through June, 2016. These visits helped to identify barriers at the local team level and possible solutions/information from state level partners, information sharing on evidence based practices, and sharing of other team's processes as ways to address barriers and encouragement of usage of funds to support processes. <u>There were an additional 36 other substantial contacts</u> that required data generation, research or something other than routine phone calls and questions. There were numerous emails and short phone calls that are not documented here but this was also provided to teams, particularly around evidence based treatment questions, data collection, or general JJSAMHP processes.

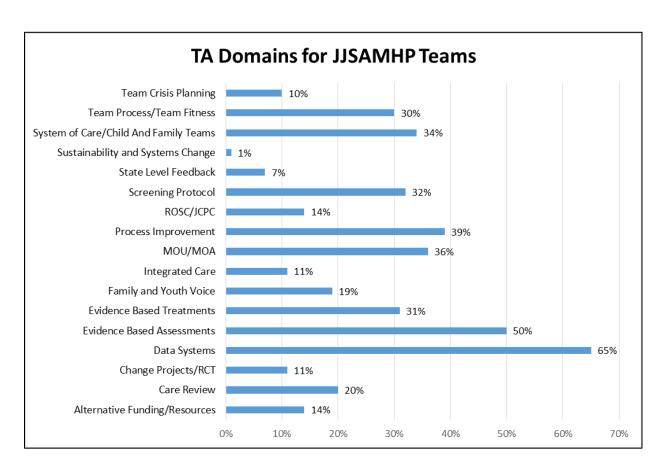

| Type of<br>Contact |     | First Quarter                | uarter Second Quarter |                          |          | Third Quarter                   | Fourth Quarter |                                 |  |
|--------------------|-----|------------------------------|-----------------------|--------------------------|----------|---------------------------------|----------------|---------------------------------|--|

- B. Additionally, monthly TA updates are provided to both state and regional level partners. 10 reports (All months except November and May) were provided during this fiscal year. Also contact on each report with Division liaison about information provided in report and follow up on concerns noted as well as key discussion points of the meetings the key discussion points. Major areas for increased focus include Sustainability Plans, Family and Youth Voice, Change Projects, Team Crisis Planning and Care Review, and Recovery Oriented Systems of Care/Beyond Treatment. The percentage of time spent with teams over the year are in the chart above.
- C. Additionally, there was a focus again on increasing capacity for Evidence Based Assessments and Treatments and best practices in service delivery.
  - a. UNCG strengthened the 4-part series for effective teams. The four trainings that were polished during this fiscal year included:
    - i. Process Improvement Training (Feedback was positive and teams wanted more training-this was extended to a full day)
    - ii. Youth and Family Engagement training for both JCC staff and for cross-system teams
    - iii. Team Fitness
    - Facilitation Skills Training (this was the only training that had not been implemented during the fiscal year but the Training matrix was completed based on training with LME/MCO liaisons)

## v. Additional trainings can be found at the following link: http://www.jjsamhp.org/training-options-for-jjbh-teams/.

b. Additional training that was funded through JJSAMHP was the Global Appraisal of Individual Needs Assessment tools and training of frontline and Clinical Leaders in The Seven Challenges. A brief description of all trainings conducted this year is below. Some of the trainings were co-funded by the Kate B. Reynolds Charitable Trust and these have an asterisk besides them. Two asterisks mean that Department of Public Safety provided substantial funding for the training.

| Training<br>Date   | Brief Description   | Number of Participants  | Location of Training                            |

# 4. Provide Support for Usage of Evidence Based Practices/Evidence Based Treatments and Best Practices

The goal is to encourage and support teams in the utilization of evidence based practices/evidence based treatments and opportunities for teams to increase their ability to provide more effective services to juvenile justice involved youth and their families. This entailed the following activities (See training section for actual support provided for training by JJSAMHP).

- A. See table above for EBP training including strengthening EBP including GAIN Training and Seven Challenges Training.
- B. Team members often request support from JJSAMHP on research of evidence based practices or providing information. An additional document was updated on Evidence Based Assessments this year.
- C. Provided support to teams on Seven Challenges and GAIN related issues-contacting management from both agencies and linking teams to training information.
- D. Training conducted on Best Practices in Screening and Assessment in Regional Meetings and completion of Best Practices Documentation.

# Section E: LOCAL TEAM PROCESSES

This section outlines all of the local team processes within each of the local JJSAMHP sites by LME/MCO. As a reminder, there are some sites where there is more than one team, and even differentiation within team based on Court District preferences. The following table provides a general overview of Evidence Based Assessment, Practices, and Treatments for each of the teams and which JJ youth are engaged for JJSAMHP **based on 2015-2016 nomenclature. One team name changed in July, 2016**. After this table, each LME/MCO main processes are outlined. More information can be obtained from the Compendium of Services at <a href="http://www.jjsamhp.org/publications/">http://www.jjsamhp.org/publications/</a>.

2. As data reporter, what is your name?

3. What is your agency name?

| 4. | What  | is ' | vour | title? |
|----|-------|------|------|--------|
| •• | vvnac | 10   | your | title. |

5. What is your email address?

6. What are the counties associated with this report?

7. What is the date of this report?

Month \_\_\_\_\_\_

Day \_\_\_\_\_

Year \_\_\_\_\_

8. For which month are you reporting this data?

\_\_\_\_\_ July 2015

\_\_\_\_\_ August 2015

\_\_\_\_ September 2015

\_\_\_\_\_ October 2015

- \_\_\_\_\_ November 2015
- \_\_\_\_\_ December 2015
- \_\_\_\_\_ January 2016
- \_\_\_\_\_ February 2016
- \_\_\_\_\_ March 2016

\_\_\_\_\_ April 2016

\_\_\_\_ May 2016

\_\_\_\_\_ June 2016

9. JJSAMHP Only-Please put in the total number of youth who participate in the following activities during the month of this report.

\_\_\_\_\_ Number of youth referred from JJ

\_\_\_\_\_ Number of assessments completed during the month

\_\_\_\_\_ Number of admissions to JJSAMHP providers during the month

10. Please describe the type of juvenile-justice involvement for JJSAMHP admissions during the reporting moth (total account for admissions only).

\_\_\_\_\_ # of Consultation youth referred by JJ during the month

\_\_\_\_\_ # of Diversion with Contract youth referred by JJ during the month

\_\_\_\_\_ # of Diversion without Contract youth referred by JJ during the month

\_\_\_\_\_ # of Pre-Adjudication youth referred by JJ during the month

\_\_\_\_\_ # of Adjudicated Delinquent youth referred by JJ during the month

\_\_\_\_\_ # of Adjudicated Undisciplined youth referred by JJ during the month

\_\_\_\_\_ # of Commitment status youth referred by JJ during the month

\_\_\_\_\_ # of Post-Release Supervision youth referred by JJ during the month

\_\_\_\_\_ # of youth with closed cases referred by JJ during the month

\_\_\_\_\_ # of Intake youth referred by JJ during the month

\_\_\_\_\_ # of other youth referred by JJ during the month

### DETENTION ONLY

1. DETENTION CENTER ONLY DATA – for this current report month (please leave blank if you are not required by the Division to report these activities):

\_\_\_\_\_Total number of youth admitted to Detention Center

\_\_\_\_\_Total number of referrals to DC SAS clinician

\_\_\_\_\_Total number of youth enrolled with a community treatment provider at admission

\_\_\_\_\_Total number of GAIN assessments (Quick, Core or Full Initial)

\_\_\_\_\_Total number of youth participating in Brief Challenges

\_\_\_\_\_Total number of youth participating in 7C sessions

\_\_\_\_\_Total number of youth with primary SA diagnosis at discharge

\_\_\_\_\_Total number of youth with primary MH diagnosis at discharge

\_\_\_\_\_Total number of youth with no diagnosis at discharge

\_\_\_\_\_Total number of youth at ASAM level III or higher

2. Other Detention Center Activities for the current reporting month (please leave blank if you are not required by the Division to report these activities):

Name of Activity \_\_\_\_\_

Total number of youth involved in activity \_\_\_\_\_

Name of Activity \_\_\_\_\_

Total number of youth involved in activity \_\_\_\_\_\_

Name of Activity \_\_\_\_\_

Total number of youth involved in activity \_\_\_\_\_

| Name of | Activity |  |
|---------|----------|--|
|---------|----------|--|

Total number of youth involved in activity \_\_\_\_\_\_

### **APPENDIX B - Data Request Questions Provided to JJSAMHP Teams**

### NC-TOPPS Data Request Form for JJSAMHP or Juvenile Justice Partnership teams

1. What is the LME/MCO associated with this report? (If someone contacts us who is not an LME/MCO representative, we will contact the LME/MCO liaison for your team)

- **O** Alliance-Cumberland
- **O** Alliance Behavioral Healthcare-Durham
- **O** Alliance Behavioral Healthcare-Wake
- **O** CenterPoint
- **O** Eastpointe-Goldsboro Site
- **O** Eastpointe-Rocky Mount Site
- **O** Eastpointe-Lumberton Site
- **O** Partners Behavioral Health-Crossroads Area
- **O** Partners Behavioral Health-Pathways Area
- **O** Cardinal Innovations Healthcare-ACOC Area
- **O** Cardinal Innovations Healthcare-Henderson Area
- **O** Cardinal Innovations Healthcare-Halifax Area
- **O** Cardinal Innovations Healthcare-Cabarrus Area
- **O** Cardinal Innovations Mecklenburg Area
- O Sandhills 8 County
- O Sandhills-Guilford Area
- **O** Smoky Mountain Center
- O TRILLIUM-Central Area
- **O** TRILLIUM-North Area
- O Smoky Mountain Center

```
2. What is your name?
```

- 3. What is your agency name?
- 4. What is your title?
- 5. What is your email address?
- 6. What is the best phone number where you can be reached directly?

7. Which data would you like to include in the analyses?

- County level (1)
- District level (2)
- MCO level (3)

8. What time period would you like to request?

- July 2010-June 2011 (1)
- July 2011-June 2012 (2)
- O July 2012-June 2013 (3)
- O July 2013-June 2014 (4)
- July 2014-June 2015 (5)
- O Most Recent data from July 2015 until last data received by UNCG (4)
- Multiple years or another time period-we will describe below in our question(s) section (5)

9. Which data would you like to examine?

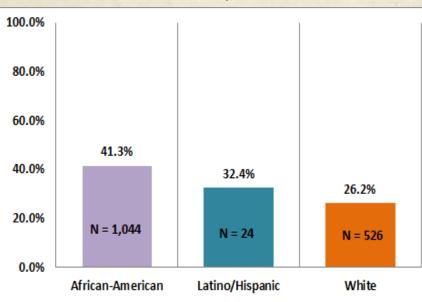

- Initial (1)
- Episode Completion (2)
- □ Both Initial and Episode Completion Together (3)

10. What questions would you like answered by using NC-TOPPS data? (Someone from the UNCG evaluation team-either Shureka Hargrove or Kenneth Gruber- will follow up within a couple of business days)

**APPENDIX C - Example of NC-TOPPS Analyses Provided** 

# Disproportionate Minority Contact (DMC) in the Juvenile Justice (JJ) System

Disproportionate Minority Contact (DMC) refers to the disproportionate number of minority youth who come into contact with the JJ system. There is a noticeable level of DMC in the JJ system. Minority youth, especially African American and Hispanic youth, are generally more likely to have contact with the JJ system at all stages, from arrest, referral to juvenile court, to disposition.\* Students are being suspended, expelled, and even arrested for minor misbehavior, and schools are using discipline policies that are ineffective or delivered unfairly, and considered to be harsh. Research shows that this zero tolerance approach does not work.\*\*

### Ethnicity by Suspension (Within 3 Months of Completion Interview)\*

\* The difference in proportions is significant,  $\chi^2$ = (3, 1877), 114.2, p < 0.001.

NC-TOPPS gathers outcome and performance data on youth with mental health and/or substance abuse issues, including demographic and school related information. The data represented includes only JJ-involved youth (between the ages of 12 to 17) in treatment services, with both an initial and completion interview form, for FYs 2010-2014.\*\*\* This figure presents the percentages of youth who were suspended, within the past 3 months of their completion interview, by ethnicity. Within 3 months prior to their completion interview, African-American JJ-involved youth were the most likely to be suspended; more than 50% more likely than White and 25% more likely than Hispanic JJ-involved youth.

# WHAT THIS DATA SUGGESTS FOR TEAMS

These data suggest that while in treatment services, more African- American JJ-involved youth are being suspended than other races. More attention should be focused on this group of youth to encourage them to participate in more pro-social activities.

Evidence based practices for effectively lowering DMC rates include:

- using data to identify conditions that are associated with the occurrence of disproportionate involvement with the JJ System
- cultural competence training: to broaden understanding of issues contributing to racial disparities in JJ systems
- cultivating a participatory culture for strengthening relationships to foster positive youth outcomes.\*\*\*\*
